Contributor

Our Carbon Footprint

ALCLAD is constantly seeking ways of reducing its carbon footprint and impact on the environment and has invested heavily in:

- A state of the art extraction/recycling system that gathers the waste product of the milling process and utilises this waste to power the paint drying ovens and heat the factory.
- Commissioning of a new Solar PV System. A large part of our daytime energy consumption requirements are generated by 480 PV Panels.

Our other ongoing green initiatives include:

- Recycling of paper and packaging materials.
- Purchasing of more energy efficient vehicles.
- Utilisation of LED lighting where possible.
- Preference to use best practice Green suppliers.

ALCLAD

SHOPFITTING

Prototyping

- Concept designs form the basis of our prototyping process.
- Our industrial design specialists convert concept designs into detailed drawings.
- Technical drawings are used to manufacture working prototypes, with time being of the essence.
- Rapid Prototyping allows for quick turn around.

A Level 1 B-BBEE
Contributor

Procurement

- ALCLAD source and procure the most cost-effective solutions from new and existing suppliers around the globe to support the manufacturing and implementation process.
- ALCLAD's network ensures that whatever the requirement, we source the correct product at the right price, within the time required.

A Level 1 B-BBEE
Contributor

Manufacture

- ALCLAD's state of the art equipment, machinery, skills and facilities transform innovative design into exquisite and practical reality.
- ALCLAD specialises in manufacturing using aluminium, steel, glass, plastic and wood.
- Amongst our latest initiatives is the implementation of an end to end Quality Control process driven by our ERP software.
- We make use of "Lean Thinking" techniques where ever possible.

ALCLAD

SHOPFITTING

Overview

ALCLAD was established in 1968, fitting out budget shoe stores. Today we have evolved and grown into Africa's premium provider of in-store solutions. ALCLAD has worked in 23 countries for over 50 years. We have installed over 16 000 stores.

The company permanently employs over 190 people internally and 41 externally.

ALCLAD operates out of a single, well equipped 13,000m² factory in Johannesburg, with further warehousing facilities in Cape Town.
